

ASSEMBLY INSTRUCTIONS FOR YOUR TUMBLEWEED® COMPOST MAKER

PARTS IDENTIFICATION

- A. Legs x 4
- B. Dowels x 2
- C. Elbows x 2
- D. Centre shaft assembly
- E. Drum joining assembly x 16
(screws, washers, nuts)

1. Remove nuts from Centre Shaft assembly (D) and fit elbows (C) with indent facing out. Refit nuts and tighten each end using two spanners turning in opposite directions as shown in Fig. 1. until nuts lock.

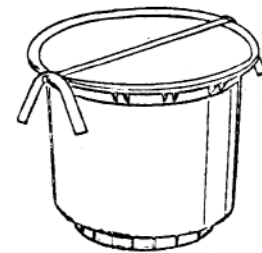

Fig. 2

2. Locate Centre Shaft assembly in bearing grooves of one drum half as shown in Fig. 2.

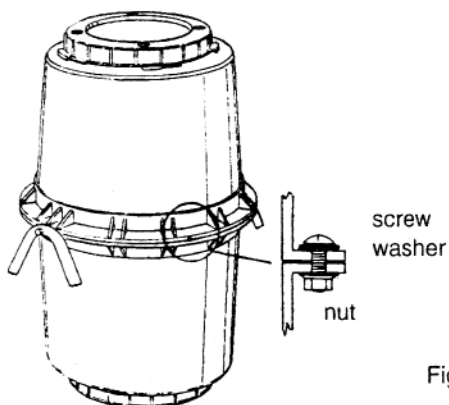

Fig. 3

3. Assemble drum by placing second half on top of first half making sure to locate bearing grooves. Join drum halves together using drum joining assembly (E) 16 of supplied, see Fig. 3. Fit 16 screws with washers in holes before adding and tightening nuts.

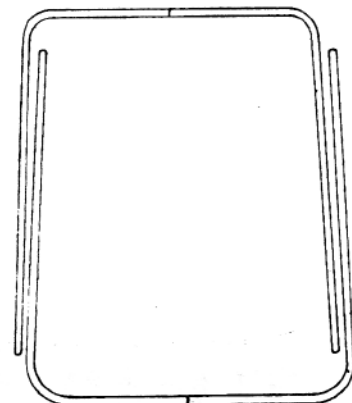

Fig. 4

4. Assemble both sets of legs (A) together by fitting dowel (B) into short part of legs and pressing together and repeat for second set as per Fig.4.

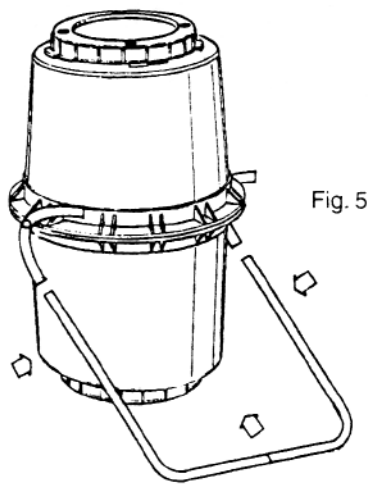

Fig. 5

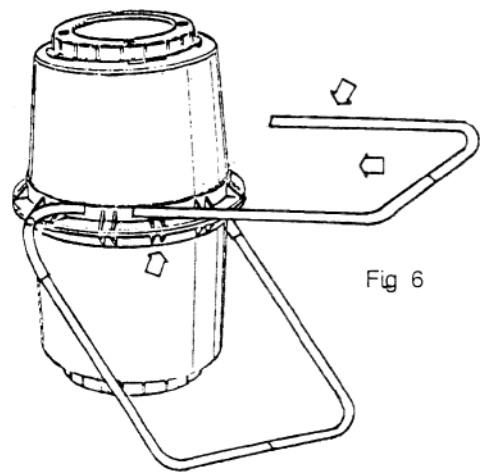

Fig 6

5. Fit one leg set to elbows by pressing "U" shape together sufficiently to allow entry to elbows, see Fig.5.

6. Fit second leg set to elbows using same method, see Fig. 6.

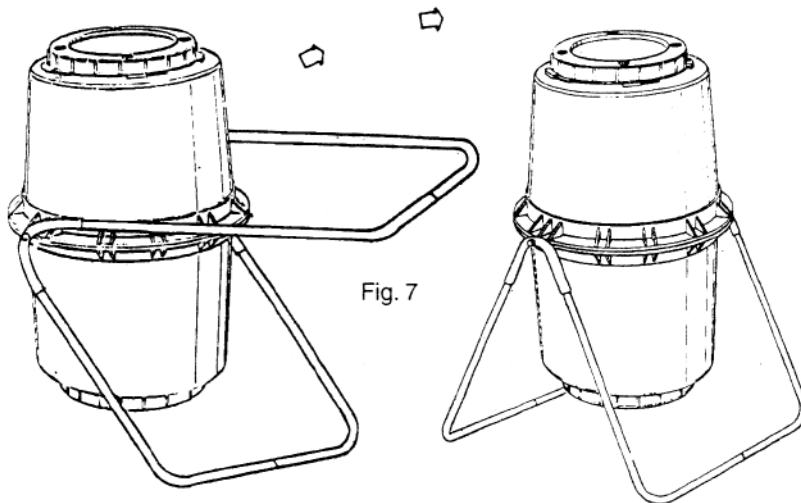

Fig. 7

7. Lift Tumbleweed Compost Maker onto the stand, as shown in Fig.7.

**For easy tumble action
LIFT and PUSH at
the same time.**
