

Worm Buffet

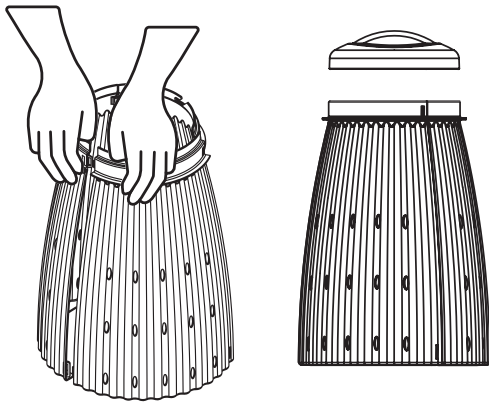

In-ground Worm Farm that turns your scraps to soil.

The Worm Buffet is Tumbleweed's NEW In-ground worm farm for raised garden beds. It is the easy, low maintenance solution for recycling organic waste at home, to turn your food scraps into soil to nourish surrounding plants.

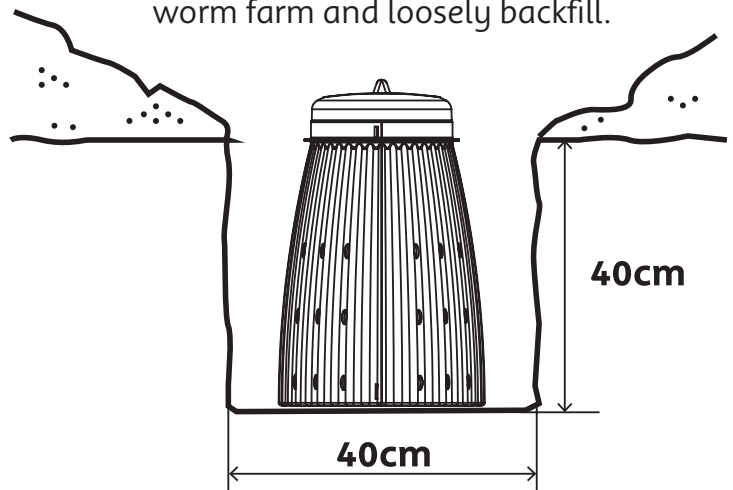

Reduce your carbon footprint by composting your food waste at home.

Easy to install.

- 1** Snap sides together.
Attach lid.

- 2** Choose your location.
Dig a 40cm x 40cm hole, position worm farm and loosely backfill.

- 3** Add your bedding block and worms you're ready to feed your worm farm with 1-2kg kitchen scraps every week!

What to recycle?

Worms will recycle anything that was once living.
Feed your worm farm with:

- ✓ Veggie peelings
- ✓ Leafy Green vegetables
- ✓ Fruit cores & peelings
- ✓ Tea bags
- ✓ Coffee grounds
- ✓ Egg shells
- ✓ Newspaper & shredded paper
- ✓ Vacuum cleaner dust
- ✓ Small amounts of citrus & onion

You will also need
