LED FLASHLIGHT**

LADYBUG

POWERplus® Ladybug Dynamo LED Flashlight

The POWERplus Junior line stands for exciting eco energy items, which are fun for children and teaches them that there are eco friendly ways to power products instead of batteries or mains power.

The Ladybug is another exciting example of eco thinking from the POWERplus Junior range

This dynamo LED flashlight in the shape of a ladybug has an integrated dynamo at the side of the product. Easily wind the handle to charge the internal battery and to generate energy.

Slide the on/off button on at the side of the Ladybug and the two eyes of the Ladybug will illuminate.

Never be without light again
