# POWERplus® Racehorse

Amazing educational  
SALT WATER POWERED  
MOTORCYCLE

After the introduction of the POWERplus Marlin – the worlds first salt water powered toy car - in 2011 and the Thunderbird in 2012, POWERplus now introduces the Racehorse.

The Racehorse is salt water powered Motorcycle with self balancing system.

This product with an ingenious design educates children how to use alternative energy sources.

This DIY kit comes with a step to step instruction manual. So the fun of playing begins with the building of this amazing motorcycle.

No batteries needed! Just add some drops of salt water to the fuel cell to power the car. Amazing but true!
