

POWERplus[®]

SOLAR-USB POWERED

PORTABLE DAB+ / FM RADIO

EVA MATERIAL PROTECTIVE POUCH

STORK

POWERplus® Stork

Solar-USB Powered
PORTABLE DAB+/FM RADIO
EVA material protective pouch

The POWERplus Stork is a solar and USB powered high quality portable DAB+/FM radio in a protective EVA pouch.

You can enjoy high quality radio through the digital DAB+ signal or through the analogue FM signal.

This radio has an integrated 800 mAh rechargeable Li-ion battery but this radio can also use disposable AAA batteries (AAA batteries are not chargeable). Through the powerful 1W solar cell, you can charge the Stork in sunny conditions or you can charge by USB. Very convenient, portable and compact.

Charging by included external solar cell or by USB

EVA material protective transport pouch with zipper and carrying cord

Backlight display with digital broadcast information and alarm clock function

Dual battery system for Lithium rechargeable battery (800 mAh included) or AAA alkaline batteries (not included)
